

In Minoh, disposal of burnable garbage is free!

Separate recyclable and dangerous materials and put them in a box!!

Refer to the 'Minoh Citizen Guide' to learn about garbage disposal.

When you don't know something about garbage disposal... ..

Minoh City Office

Waste Management Division

Burnable garbage

- City's Burnable Garbage Bags are **issued every year for free** according to the number of residents in a household.
- We will issue a set amount of bags meant to cover until the end of September (Those who moved between Jan-Jun will receive an amount for until the end of Sep. this year, those who moved between Jul-Dec will receive an amount for until Sep. of the following year).
- At the **beginning of August** every year we will **send you** an "exchange coupon" used to cover the amount of bags starting from October.
- You can exchange the coupons for burnable garbage bags at any Minoh City Garbage Bag Distributor (see list on pages 15-16).
- You can buy more Burnable Garbage Bags if you run out of them.**
(sold by Minoh City Garbage Bag Distributors)
- Tie the bags shut with a cross shaped knot. Items that do not fit in the bags are oversized garbage.

Let's reduce garbage by only using the free distributed bags

Same collection Day!

Unburnable garbage

Up to 2 bags per collection

- You have to buy the Minoh City Unburnable Garbage Bags (sold by Garbage Bag Distributors).
- Tie the bags shut with a cross shaped knot. Items that do not fit in the bags are oversized garbage.

Dangerous garbage

Please follow the right disposal method for items that may explode or cause damage in a vehicle.

- Collection of lighters, dry batteries, thermometers containing mercury, fluorescent lights, gas cartridges, and spray cans is free of cost.
- Please put lighters, dry batteries and thermometers in a transparent bag; fluorescent lights in an empty box; gas cartridges and spray cans in a basket.

Oversized garbage

1 item per collection

- You have to buy an Oversized Garbage Ticket (sold by Minoh City Garbage Bag Distributors).
- For items which their longest side is below 1.5m, 1 ticket is required; for 1.5m to 3m, 2 tickets.

**Is it an item with no use at all? Can it be repaired?
Let's consider these options one more time**

PET bottles

To encourage recycling, collection is free of cost

- Waste sorting of PET bottles is free. There is no need to use a bag, just put them in a basket.
- Please remove the cap and label, rinse with water. Caps and labels are burnable garbage. Since April it is now possible to dispose of them in supermarkets and public facilities.

Cans/bottles

To encourage recycling, collection is free of cost

- Waste sorting of cans and bottles is free. There is no need to use a bag, just put them in a basket.
- Let local associations and "city caravan collection" collect your newspapers, magazines, cardboards, old clothes and cartons. For information about local associations' collecting days, inquire to the Citizen's Information Division (724-6179); for the "city caravan collection" refer to the website or to the Waste Management Division (729-2371).

Price of garbage bags and disposal tickets (fees for garbage disposal)

Item	Quantity	Volume	Price
Burnable Garbage Bags	10	20m ³	¥ 411
		30m ³	¥ 617

Little things we can do...

Bring your own bag to the store

Separate recyclable garbage

Buy items with simple packaging

Buy long-lasting items

Only cook what you need

Don't buy more food than you need

- Collection is not affected by public holidays.
- Around New Year's, there is a special schedule. Please check the December issue of the city magazine, "Momiji Dayori".
