

☆ Disposal Rules in Suita ☆

Reduce & Recycle

Thanks to the cooperation from the city's citizens, waste in Suita has continually decreased since 2000. The year 1991 had the highest amount of waste recorded and since then it has decreased approximately by 21 percent.

If everyone disposes of Recyclable items properly, then they can be effectively reused again. Please observe the 12 separation groups for waste disposal to reduce and recycle, and let's make an "Environmental Friendly Suita City".
