

2nd Clinical Immuno-Imaging Conference

第2回 臨床免疫イメージングカンファレンス

5:30 p.m.

Opening Remarks

Jun Hatazawa (Department of Nuclear Medicine and Tracer Kinetics, Osaka University Graduate School of Medicine)

5:35 p.m.

PET imaging of rheumatoid arthritis

Tadashi Watabe, Kenichiro Hamada & Jun Hatazawa (Department of Nuclear Medicine and Tracer Kinetics, Osaka University Graduate School of Medicine)

5:50 p.m.

WT1 peptide immunotherapy for brain tumor evaluated by ¹¹C-Methionine PET

Naoya Hashimoto (Department of Neurosurgery, Osaka University Graduate School of Medicine)

6:05 p.m.

Multiple sclerosis evaluated by ¹¹C-Acetate PET

Yuji Nakatsuji (Department of Neurology, Osaka University Graduate School of Medicine)

6:20 p.m.

The radiological evaluation of ¹⁸F-FDG PET-CT in detecting recurrent or metastatic malignant melanoma

Atsushi Tanemura (Department of Dermatology, Osaka University Graduate School of Medicine)

6:35 p.m.

Concluding Remarks

Masao Imaizumi (Laboratory of Nuclear Medicine, Immunology Frontier Research Center, Osaka University)

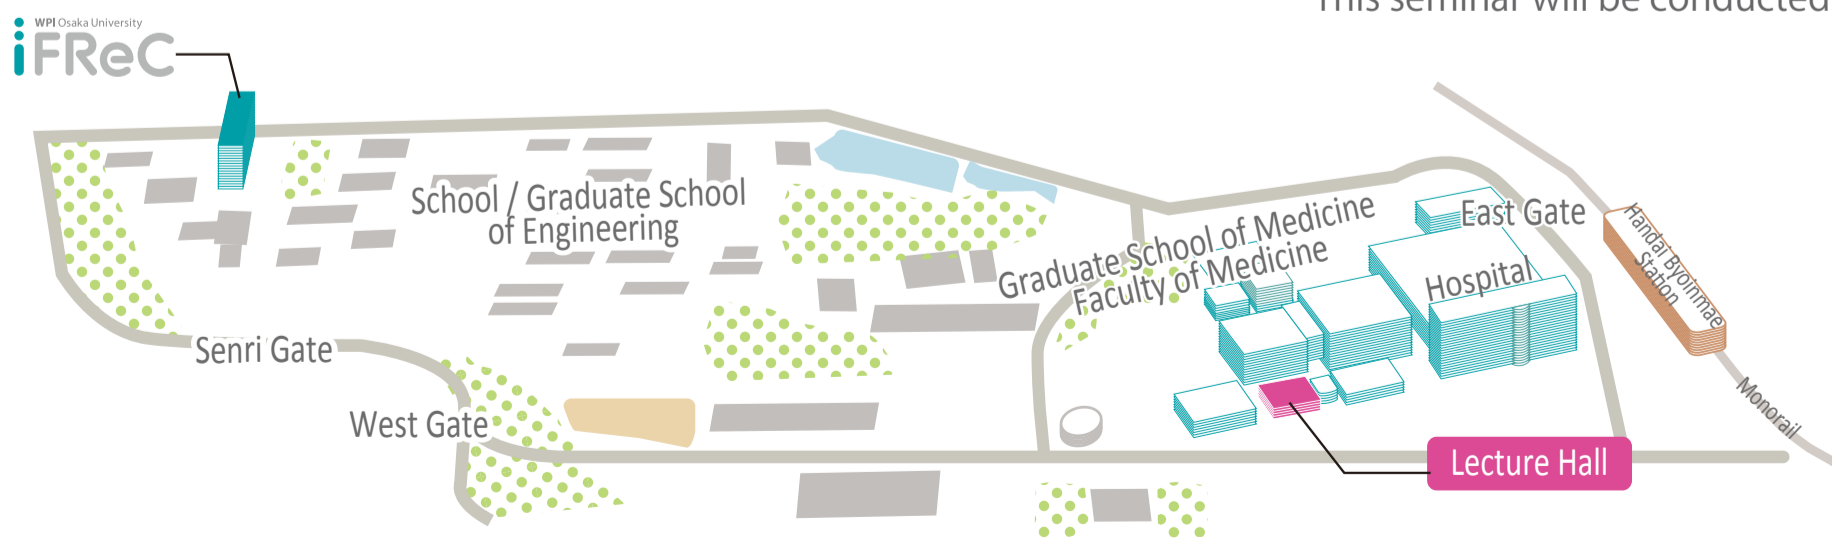

Friday, December 10, 2010

Lecture Hall A

Osaka University Graduate School of Medicine

大阪大学医学部医学科 講義棟 1F A 講堂

This seminar will be conducted in English.

Host: Masao Imaizumi

Laboratory of Nuclear Medicine, Immunology Frontier Research Center (IFReC), Osaka University & Department of Nuclear Medicine and Tracer Kinetics, Osaka University Graduate School of Medicine Tel: 06-6879-3461 e-mail: imaizumi@tracer.med.osaka-u.ac.jp
