#### Job Description

The University of Osaka Immunology Frontier Research Center (IFReC) is recruiting post-doctoral researchers for its Advanced Postdoc Program. This program offers three-year employment and funding (3 million yen per year) for original research to promising young researchers. Selected applicants have access to continually upgraded state-of-the-art facilities at IFReC for their research, including equipment for single-cell analysis. Furthermore, selected applicants can expect their research careers to develop immensely through invaluable guidance from their supervisor among IFReC's many distinguished Principal Investigators as well as through collaborative research with them. We look forward to receiving applications from ambitious young researchers.
