

Speakers

Yuki Mori

Laboratory of Biofunctional Imaging (IFReC)

[Speech Title] "In Vivo MR Lymphography in Mice at 11.7 T: Contrast Enhancement Imaging for Lymphatics and Phagocytes"

Masao Imaizumi

Laboratory of Nuclear Medicine (IFReC)

[Speech Title] "Dynamic immune-imaging by using positron emission tomography"

This seminar is conducted in English.

Place
Date/Time

Place: Taniguchi Memorial Hall

(1st flr. Integrated Life Science Building Osaka University)

Date: Thursday, March 17, 2011

Time: 3:00pm - 5:00pm

3:00 - "In Vivo MR Lymphography in Mice at 11.7 T: Contrast Enhancement Imaging for Lymphatics and Phagocytes" / **Yuki Mori**

3:40 - "Dynamic immune-imaging by using positron emission tomography" / **Masao Imaizumi**

4:20 - Get together with tea/coffee and snacks

Contact: Fumihiko Fujii (Laboratory of Nano-bio Materials / IFReC)
